Md inter College sangipur pratapgarh

SKILLS

HTML

Bootstrap

React js (learning)

Css

Javascript

Git and GitHub

PROJECTS

- **Netflix clone**
I created Netflix clone app using html css javascript
this Netflix clone website is full responsive for small device
- **Music App**
I created music app using html css and javascript

this is simple music player application user can play and pause music
If the user wants, he can play both the next song and the previous song
This music player application has a music input bar so that the user can adjust the timing of the audio back and forth according to his own.
